FOREIGN BROADCAST INFORMATION SERVICE

NOTE

JPRS publications contain information primarily from foreign newspapers, periodicals and books, but also from news agency transmissions and broadcasts. Materials from foreign-language sources are translated; those from English-language sources are transcribed or reprinted, with the original phrasing and other characteristics retained.

Headlines, editorial reports, and material enclosed in brackets [] are supplied by JPRS. Processing indicators such as [Text] or [Excerpt] in the first line of each item, or following the last line of a brief, indicate how the original information was processed. Where no processing indicator is given, the information was summarized or extracted.

Unfamiliar names rendered phonetically or transliterated are enclosed in parentheses. Words or names preceded by a question mark and enclosed in parentheses were not clear in the original but have been supplied as appropriate in context. Other unattributed parenthetical notes within the body of an item originate with the source. Times within items are as given by source.

The contents of this publication in no way represent the policies, views or attitudes of the U.S. Government.

PROCUREMENT OF PUBLICATIONS

JPRS publications may be ordered from the National Technical Information Service, Springfield, Virginia 22161. In ordering, it is recommended that the JPRS number, title, date and author, if applicable, of publication be cited.

Current JPRS publications are announced in Government Reports Announcements issued semi-monthly by the National Technical Information Service, and are listed in the Monthly Catalog of U.S. Government Publications issued by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Correspondence pertaining to matters other than procurement may be addressed to Joint Publications Research Service, 1000 North Glebe Road, Arlington, Virginia 22201.

Preface (3).....	2
1. Introduction (3).....	4
1.1 Structure of this publication (10).....	4
1.2 SMEP Program (11).....	5
1.3 System of markings (11).....	6
2. 16-bit Systems (13).....	7
2.1 Hardware systems (13).....	7
2.1.1 Basic Configurations (16).....	12
SM 3-20 Minicomputer.....	12
SM 4-20 Minicomputer.....	15
SM 52/11 Minicomputer.....	20
SM 50/50 Microcomputer System.....	25
PPPD 1 Acquisition System with SM 3-20.....	31
PPPD 1 Acquisition System with SM 50/50.....	31
PPPD 2 Acquisition System with SM 4-20.....	33
ISAP 1 Graphic System with SM 4-20.....	34
IMS 2 Measuring System, with SM 50/50.....	36
2.1.2 Disk Memories (35).....	37
5 MB-CM 5400, CM 5403.....	37
10 MB-CM 5410.....	38
29 MB-CM 5405.....	39
Memory with CM 5605 Floppy Disk.....	39

2.1.3	Tape Memories (40).....	42
	CM 5300, CM 5300.01, IZOT 5003.....	42
	CM 5302, CM 5003.....	42
2.1.4	Peripheral Units Using Paper (42).....	45
	CM 6204 Tape Reader/Perforator.....	45
	CM 6208 Tape Reader/Perforator.....	46
